SUMMARY:

New graduate with extensive practice in computer science and technology engineering. Searching for the opportunity to bring experiences with programming, technology engineering, and server maintenance to a **Software Engineer** position incorporating critical thinking, problem solving, and leadership. 100% willing to relocate.

WORK EXPERIENCE:

Interactions LLC   New York, NY
Software Engineer Intern   Summer 2018
- Worked closely with AI team to develop and harden Conversational Ordering prototype
- Communicated with internal teams (e.g. developers and product managers) to identify bugs and system requirements
- Extended and improved Point-of-Sale integration with minimal documentation.
- Developed software test framework to improve the overall reliability of the Food Services platform

Development Environment Tool Set: Python, HTML, CSS, Node.js, Express, JQuery , LUIS, XML and Helix

AT&T   White Plains, NY
Software Engineer Intern   Summer 2017
- Involved in Requirement Analysis, Design, Development and Testing of the risk workflow system
- Worked on orchestration and user board of Domain 2.0
- Evaluated performance of storage solution and find out bottlenecks and performance tunings for Domain 2.0
- Implemented Struts framework (Action &Controller classes) for dispatching request to appropriate classes
- Used simple Struts Validation for validation of user input as per the business logic and initial data loading

Development Environment Tool Set: Java, Java Script, HTML, CSS, Spring, Hibernate

DZTech   Bangalore, India
Software Developer Intern   Summer 2016
- Developed all client-side logical implementation part of applications with AngularJS
- Worked on AngularJS frame work to augment browser-based applications with MVC Capability, built dynamically generated dropdown lists using Ajax, JQuery and AngularJS
- Full participation in Agile Software Development team
- Migrated existing business applications to Amazon cloud services (AWS) based environment and also deploy applications using Amazon web services

Development Environment Tool Set: JAVA 1.6/1.7, J2EE, Angular JS, Ajax, Hibernate, JQuery, Node JS, Web Sphere Application Server 8.x, AWS

EDUCATION:

University at Buffalo, Buffalo, NY   Feb 2019
Bachelor of Science in Computer Science   GPA: 3.22

SKILLS:

- Programming Languages:
  Java, Python, C/C++,
- Database Technologies:
  MySQL server, MS SQL, Mongo DB
- Machine Learning Libraries:
  Scikit-Learn, NLTK, Numpy,
  Matplotlib, Pandas, Scipy, Theano

- Web Technologies:
  HTML5, CSS3, JavaScript, AngularJS, XML, AJAX, JQuery, Node.js, JSON, NodeJS, BootStrap, XML, Express
- Blockchain Tools:
  Solidity, MetaMask, Ethereum, Truffle Suite, Web3.js

- Source Control:
  GIT, CVS, SVN
- Operating Systems:
  MacOS, Windows, UNIX, Linux
- Cloud Technologies :
  AWS, Docker, Google Cloud Platform, S3, SQS, Lambda, CloudWatch

HONORS AND AWARDS:

- Blockchain Hackathon, 1st runner up   April 2018
- Don and Mary Ellen Passantino Scholarship   June 2016
- Ann M. O'Sullivan Outstanding International Student   May 2016
- Urban Female Leader Academic Excellence Award   May 2015
